

Privacy Policy

Pure Outsource Privacy Policy

To streamline compliance with the General Data Protection Regulation ("GDPR"), Pure Outsource, has posted a Data Processing Agreement ("DPA") governing the relationship between the customer (as defined in the DPA) acting as a data controller or processor, as applicable (and as defined in the DPA), of personal data under American Data Protection Legislation; and Pure Outsource (acting as a data processor or subprocessor, as applicable).

Unless otherwise agreed to in writing by you and Pure Outsource, to the extent Pure Outsource processes any personal data for you as a controller (as defined by the General Data Protection Regulation) in your role as a customer, the Data Processing Agreement applies.

Identity Verification

Before a freelancer can complete the registration on our platform, or at any time thereafter, we may request or re-request identity verification. Without limiting the manner in which we request identity verification, we may require freelancers to attend video conferences after submitting their government issued ID. This process is so we can indeed verify the freelancer is the individual on the government-issued ID that has been submitted to our platform.

Pure Outsource may use the information obtained from the Identity Verification process for purposes of verifying your identity, enforcing Pure Outsource's Terms of Service and other agreements, as well as preventing fraudulent activities on the Pure Outsource platform.

Testimonials

Pure Outsource displays personal testimonials of satisfied customers on our service, in addition to other endorsements. With your consent, we may post your testimonial along with your name. If you wish to update or delete your testimonial, you can contact us at support@pureoutsource.com or via the "help center" here.

Use of Information Collected

- Pure Outsource uses the data we collect to provide and improve the service, complete your transactions, address your inquiries, process your registration, verify the information you provide is valid, and for compliance and internal business purposes.
- To contact you with administrative communication
- To tailor content we display to you and offers we may present to you, both on the service and elsewhere online

We care about your security!

Pure Outsource takes commercially reasonable steps to help protect and secure the information it collects and stores about Pure Outsource users.

All-access to the Site is encrypted using industry-standard transport layer security technology. We also use HTTP strict transport security to add an additional layer of protection for our Pure Outsource users.
